

## Core Print Product Materials

### Teacher's Guide

- With each *TIME for Kids* issue we publish, we develop a guide to help educators teach the content. Each guide contains lesson plans, defined vocabulary terms, worksheets, and a quiz for all articles that are featured in that week's magazine.

### Magazine Quiz (located within the Teacher's Guide)

- We provide a quiz to assess student's knowledge of all content featured in that week's magazine. The quiz includes 10 multiple-choice questions.

## Additional Online-Only Teaching Materials

### \*\*NEW\*\* Virtual Learning Materials

- In response to the many educators working around the clock to find and/or write lesson plans during this time, *TIME for Kids* is developing weekly guides with links to digital articles, a set of discussion questions to post and engage students about what they read, and links to additional resources.
- \*Please note, we are developing these for all of our 2020 issues and will post them as they become available.

### Cover Quiz

- A cover story is a two-page article in the magazine. You can think of it as the longer feature story in a weekly issue. We provide a cover quiz to assess students' knowledge of the cover story. The quiz includes six multiple-choice and one open-ended question.

### Cover Quiz Distractor Guide

- To help educators analyze student misconceptions, we provide a Distractor Guide for the cover quiz. It details why each distractor is correct or incorrect.

### Magazine Quiz Distractor Guide

- To help educators analyze student misconceptions, we provide a Distractor Guide for the magazine quiz. It details why each distractor is correct or incorrect.

### Educator's Guide

- These guides are developed to pair with a specific book *TIME for Kids* has featured in the *TIME OFF* section of the magazine. The guides can be used for book clubs, literature circles, or read alouds. They include discussion questions, lesson plans, worksheets, and a quiz assessing students' knowledge of the book.

### Text Set

- Pair nonfiction articles from *TIME for Kids* with a curated list of literary texts to dive deep into themes such as space exploration, climate change, civil rights, and youth innovation.
